

# General Assembly

June 20-21, 2019; Paris

**Meeting venue:** Paris Marriott Opera Ambassador Hotel, 16 boulevard Haussmann, Paris - France

---

The CRIGH initiative ([www.criqh.org](http://www.criqh.org)) aims to support international collaboration on clinical research by developing global standards and establishing a collaborative framework to address health issues worldwide.

The second CRIGH General Assembly represents the opportunity to discuss the progress of the various activities and establish a roadmap for the future actions to be tackled. Breakout sessions will enable in-depth discussion within each project, and coordination of activities across the projects. Transversal and overarching aspects related to international clinical research will be presented to feed the discussion.
