## ABOUT CZECRIN

CZECRIN is a distributed, nationwide, large-scale research infrastructure supporting academic clinical research in the Czech Republic. CZECRIN provides a portfolio of services and research capacities for innovative clinical research and drug development. CZECRIN supports national and international cooperation in clinical research for the benefit of patients, citizens and healthcare. All this includes CZECRIN's new comprehensive strategy with a vision characterized by the motto: "CZECRIN - towards patient-oriented medicine."
